## WHAT IS epipay™ ?

epipay™ online food ordering solution helps restaurant owners develop an online presence that will help build brand recognition while allowing them to engage in digital marketing and social media campaigns to attract new customers while retaining current customers.

**epipay™ is a complete online ordering solution with two main components:**

- 1) epipay.com** – a foodport website where customers can search for restaurants and place online orders
- 2) Branded webpage** – restaurant owners will be able to create a branded webpage on epipay.com that will help build an online presence and expand their market reach

## HOW IT WORKS?

epipay™ is an additional online service that is part of UP Solution® Cloud Services. Restaurant owners can update their online menu, and edit content and images for their branded webpage. This service can also be fully integrated with UP Solution's restaurant POS system: **UP Restaurant®** and **UP TAB™ Restaurant**.
